

## Texas Industries of the Future

**FEBRUARY 2012**

**“IMPLEMENTATION: IT’S WHERE THE RUBBER MEETS THE ROAD” WILL BE THE TOPIC OF THE MARCH 1 ENERGY FORUM.** Registration is now open. If you have been in energy management for any time, you know that it’s not too hard to develop a list of projects and programs that will improve your energy performance. It’s getting the projects approved, implemented and sustained that presents the challenge. The speakers will describe a variety of approaches to improving implementation rates. The program is available on-line [here](#) Registration open at <http://texasiof.ces.utexas.edu/tiof/tiemf-3-1-12.asp> There is no charge for the Forum, but advanced registration is requested so that adequate facilities can be provided.

**CALL FOR ABSTRACTS ON ISO 50001 IMPLEMENTATION.** Texas IOF is organizing a day-long track at the Texas Chemical Council annual EHS seminar on June 7. The theme of the track will be “ISO 50001 Implementation”. If you have a topic of interest to the Texas process industries, submit an abstract for consideration. Topics might include metrics and tracking progress, management system integration, identifying opportunities, building management support, or auditing. Abstracts from end-users are especially encouraged. See the document “Submit an Abstract” on the “What’s New” section of the Texas IOF home page <http://TexasIOF.ces.utexas.edu/> **Deadline: February 29, 2012.**

### **2012 TEXAS IOF UPCOMING EVENTS**

- *Texas Industrial Energy Management Forum*, March 1, 2012. Houston. Registration open.
- *ISO 50001 Implementation*, June 7, 2012. Galveston. Abstracts due by February 29.
- *Texas Industrial Energy Management Forum, October 4, 2012*  
In conjunction with the AIChE Process Technology Conference. The theme will be “Energy and Water.”

Professional development hours are available for participation in all programs.
